HIRING RESEARCH ASSISTANTS

1/A101

Hello, I am hiring research assistants to collaborate on a design-research project speculating on our collective future entangled in environmental injustice!

If any of the following terms interest you, consider applying:
time, space, environment, centuries, ecology, justice, energy, planet, artificial and natural systems, resource management, crisis, matter, design fiction, drawing as research, material culture, plants, speculative futures, narrative, ecocritical, geology, trans-disciplinary, anthropocene, curate, mapping, critical practice, possible, event.

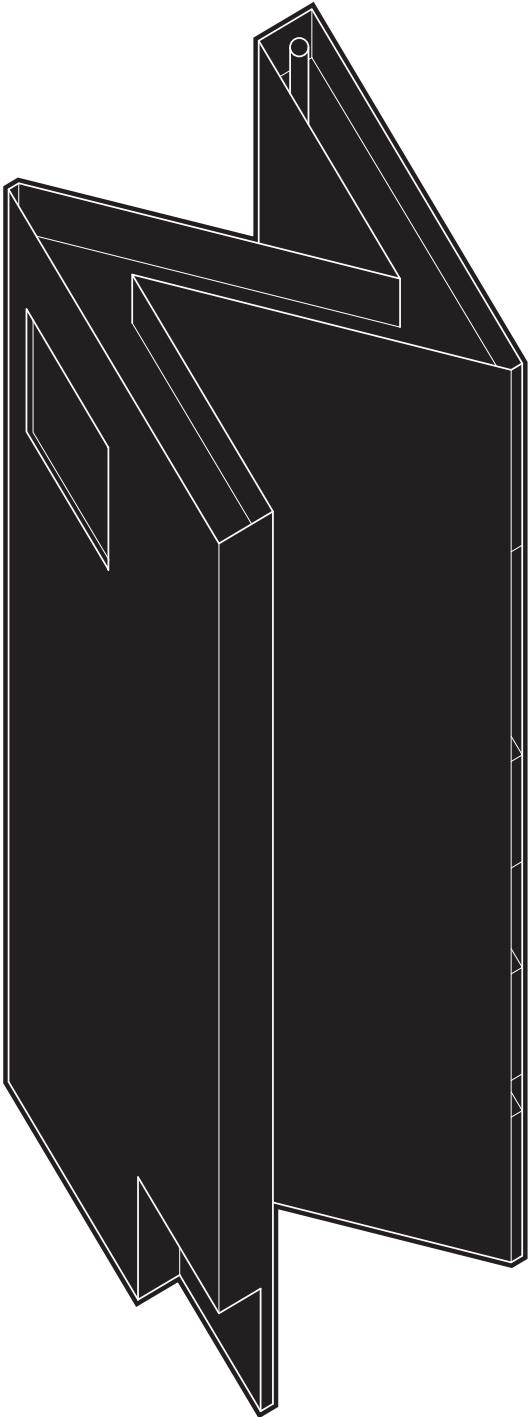

Rate of pay is \$13.50/hr (undergraduate) and \$15.00/hr (graduate).

I am open to a number of different skill-sets. I have a specific need for adept digital drawing skill-sets (Rhino, Illustrator, 3D line drawings), fabricators (wood models and small objects), and extremely curious writers, budding archivists, and poets.

Send me an email (provoste@udmercy.edu) if you are interested.
