## The Most Dangerouses States for Pedestrians

## Inconviniente Dangerous Florida

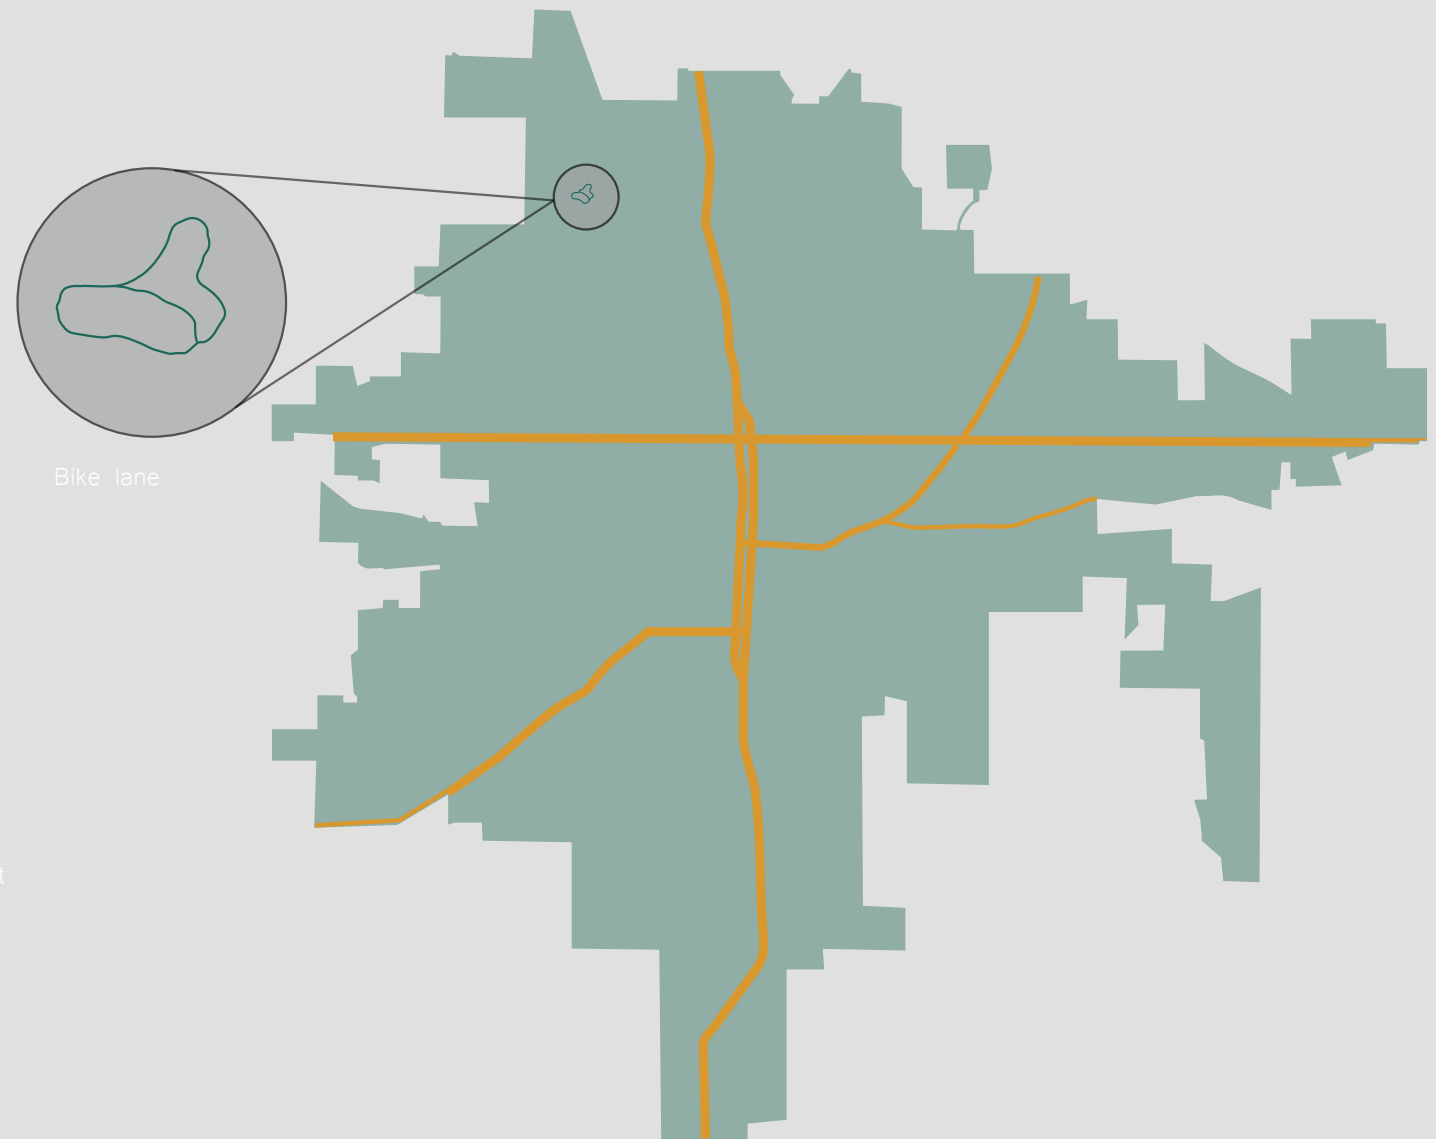

Here are the five most unsafe metro areas in which to walk.

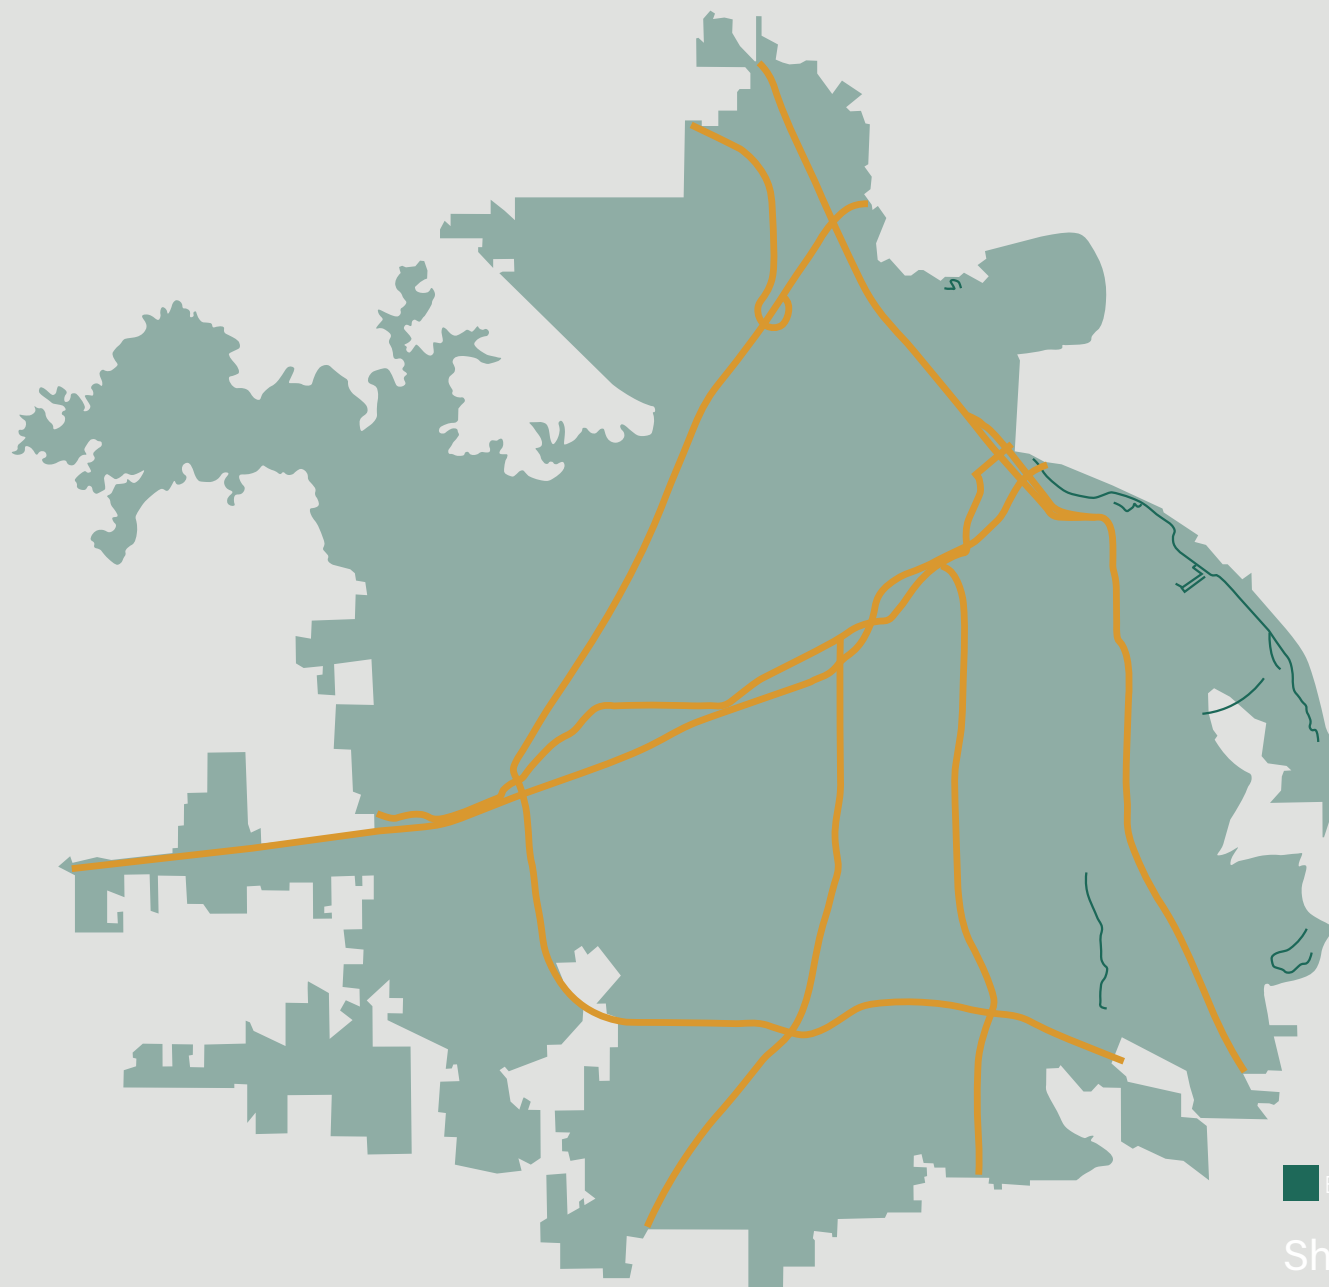

These cities have metros implemented to their system, but the areas are not safe due to the road designs.

## Ruston LA/ Car Dependent City

Ruston, Louisiana is a car dependent city. Almost all errands required a car to be done. Minimal side walks, no public transportation, no bike lanes on the roads. There is only one bike lane, located at Cook Park.

 Bike Lanes

Shreveport LA/ Car Dependent City

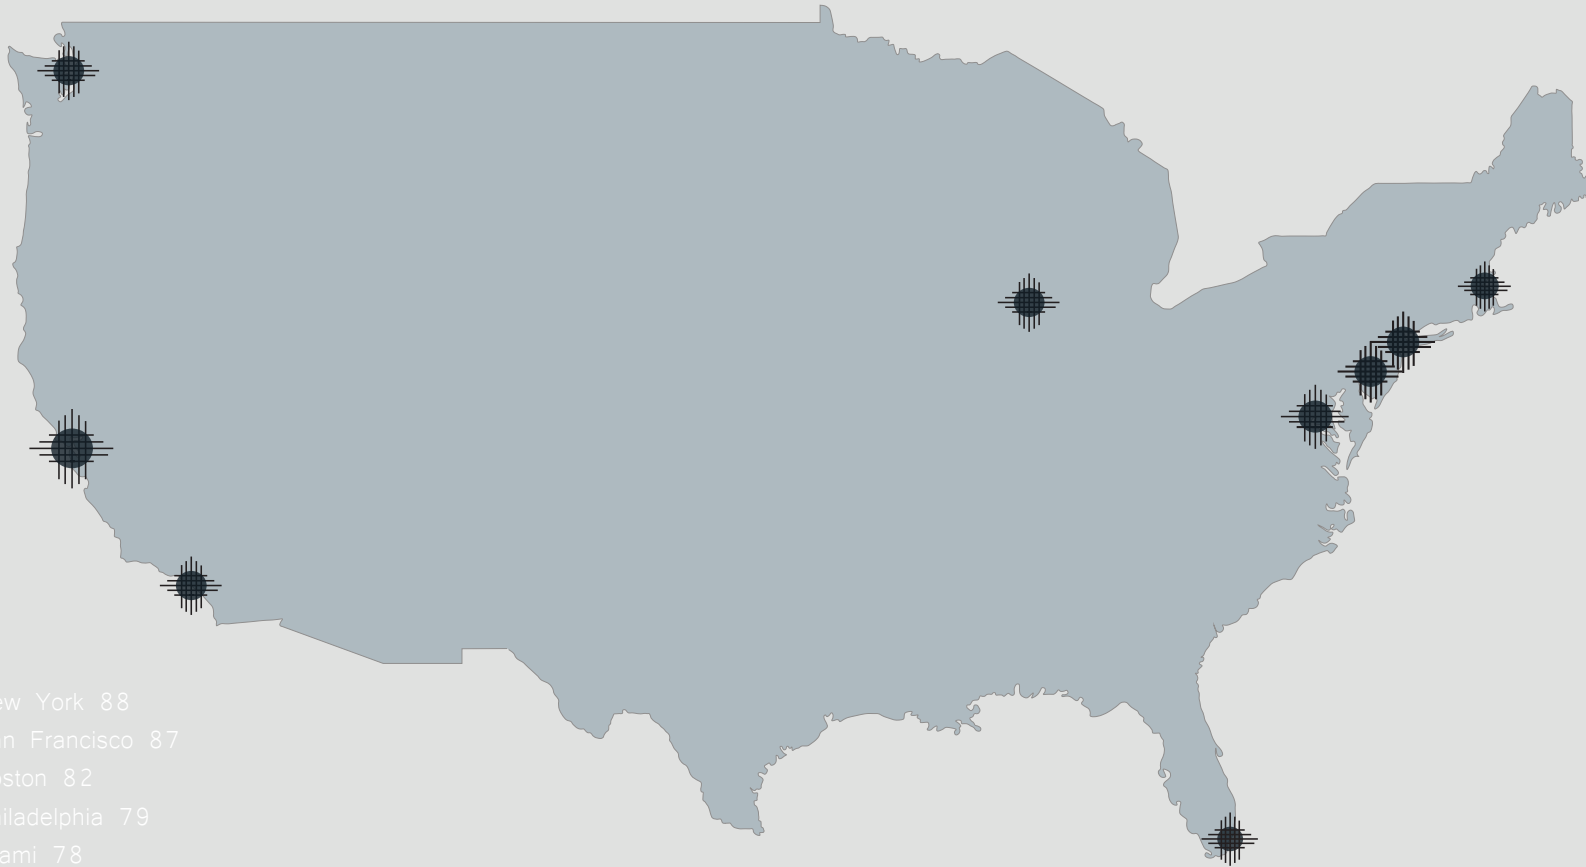

Desire of paths

Death due to lack of sidewalks

## Most Walkable States

New York 88
